

E-VEST - RED

EB02.055

Developed for use in medical interventions, fires, vehicle extrication, rescue operations, operational command identification, and more.

The E-VEST by Elite Bags is made of mesh fabric throughout its perimeter. It features two detachable front external pockets (via a MOLLE system) for diagnostic and intervention materials and two large-capacity internal flat pockets.

Includes a rear internal compartment for a hydration pack and a MOLLE system on the front, back, and sides for attaching additional medical and/or tactical equipment on the exterior.

- Red: EB02.055 (S/M) | EB02.050 (L/XL)
- Blue: EB02.056 (S/M) | EB02.054 (L/XL)
- Yellow: EB02.058 (S/M) | EB02.059 (L/XL)
- Green: EB02.060 (S/M) | EB02.061 (L/XL)
- Orange: EB02.065 (S/M) | EB02.066 (L/XL)
- Fluorescent Yellow: EB02.080 (S/M) | EB02.081 (L/XL)
- Black: MB11.014 (S/M) | MB11.015 (L/XL)

Features

- Front, rear, and side MOLLE systems for attaching various equipment.
- Rear internal pocket for a hydration bladder with an opening for the hose.
- Two front external pockets for intervention materials and trauma shears.
- Two large-capacity front internal pockets for maps, documents, or intervention materials.
- Rear handle to assist in extracting injured personnel.
- Back identification system with Velcro patches.
- Made of breathable mesh fabric to regulate external temperature.
- Adjustable shoulder and back straps for a customized fit.
- Reflective strip for better user visibility, removable on the black vest.
- Glow-in-the-dark pull tabs, except on the black vest.
