

KEENS COOLS

EB01.010

The incredibly popular Elite KEEN'S is a clever pocket expansion and organisation device, designed specifically for nursing and hospital staff. The twin-leaf, centrally folded wallet fits snugly into the pocket of scrub dress uniforms or can even be placed on a desktop, providing secure and organised storage for a range of critical nursing accessories, such as scissors, tweezers, pens, tapes, and swabs. It can dramatically reduce the time taken to locate important objects and help prevent injuries caused by loose, sharp objects when placed directly in pockets. Available in a range of colours, allowing personal instruments to be easily transferred between scrubs and wards without loss or fuss.

Features

- Closure flap with press-fastener, doubles to secure the wallet in a stable open display format that can be placed on work surfaces.
- Three flat pockets and one mesh pocket to organise and secure clinical and personal effects
- Flexible strap to hold tape reels.
- Magnetic clips to hold the wallet in place when in a uniform pocket.
- Wide range of colours for personalisation, including patterned designs
