

## PARAMED'S EVO - BLACK

### MB11.019

The PARAMED'S EVO backpack is ideal for emergency rescues and assistance in hard-to-reach areas where the user's freedom of movement is essential.

Its XL size allows for greater storage capacity and better distribution and organization of its contents.

The MOLLE system on the entire outer part of the bag allows the user to attach additional pockets or various materials.

### Features

- MOLLE system in all the external part of the bag, both frontal and lateral, to be able to anchor additional pockets or diverse material.
- Internal pocket to house the hydration bag and tube extraction hole.
- Upper front pocket for diverse material.
- Molle removable side handle
- Multipurpose padded front panel with defibrillator capacity.
- Waterproof cover stored inside the base.
- Padded rear panel with breathable mesh.
- Removable central flap with multiple rubber bands on one side and transparent large capacity pockets on the other.
- Four internal tapes with hook and loop technology closure for holding the oxygen bottle in different positions, allowing for even weight distribution.
- Isothermal ampoule holder with capacity for 44 ampoules.
- Five removable compartments with a transparent window, according to the international color code for material and instrument classification.
- Padded shoulder straps are fully ergonomic.
- Reflective chest closure adaptable in height, with a whistle, included.
- Quick release system for emergency situations.
- Removable waist pack for maximum support at the waist and with small zipper pockets for smaller material.
- Rear padded panel completely redesigned to ensure maximum comfort.
- Compression tapes in the base to transport blankets, sleeping bags, mats, etc.
- Zippered base pocket for storing the waterproof case.
- Identification band with hook and loop technology, a cross of the removable life and card holder.
- High-quality reflective bands and handles.
- Lateral compression or fastening tapes.
-
