

PRACTIS

EB00.012

The Elite PRACTIS represents a highly versatile and lightweight home care travel bag. With a configurable and organised internal layout, a surprising quantity of clinical materials can be stored and arranged, ensuring they are always on hand and in perfect condition when needed. The main compartment contains two removable equipment pouches with transparent PVC windows, a removable isothermal ampoule holder and a general storage area, conveniently compartmentalised with detachable Velcro dividers. Additional large format flat pockets and arrays of elasticated straps provide a perfect means to secure bandages, swabs, syringes and other medical consumables. With a comfortable padded handle, removable shoulder strap and lockable zip, the PRACTIS is an excellent compact and easy to carry clinicians visiting bag.
