

QUICKAID - RED

EB02.032

The Elite QUICKAID'S paramedic's first aid kit bag is one of the larger and more versatile in Elite Bags first aid kit range. Its bigger capacity provides additional space for critical materials needed by first responders and health-care professionals when dealing with emergency situations. The fast, single pull, full-length front opening flap provides immediate access to all contents. A removable double sided, central storage leaf features both mesh fronted zip pockets on one side, and elasticated loops on the reverse. Internal pockets and loops provide ample storage options for a wide range of emergency first aid materials. Anti-slip leg straps, removable waist band and PAL webbing ensure the pack can be secured accurately to the body or other packs with ease.

Features

- MOLLE back panel for universal attachment to bags or vests.
- Night & Day reflective bands, reflective zips and glow-in-the-dark pull cords ensure the pack can be located and opened in all conditions.
- Double full length zips for single pull, fast contents display.
- Velcro adjustable elasticised storage loops.
- Drain hole at the base of the bag.
- Removable, Velcro backed, identification badges.
- Tough handle with removable red band to ease location.
- Detachable central leaf divides interior for better organisation and secure storage of materials.
- Mesh fronted pockets and elasticated loops allow items to be seen while stowed.
- Side storage elasticated pockets.
