

TALK - BLACK

MB11.020

The Elite TALK provides a secure and durable holster for ATEX safety radios, allowing these handsets to be secured about the person, strapped, for example, to a backpack shoulder strap or vest. An elasticated cord holds the unit safely in place, but ensures it can be removed without fuss when needed.

Features

- Built from tough 1000D Polyester for enhanced durability.
- High visibility night & day pull tab to release elasticated cord.
- MOLLE system webbing allowing anchorage to shoulder strap, backpack strap or emergency vests.
- Elasticated sides grip radios firmly in place.
